

**Town of Kipling
Policy Manual**

POLICY DESCRIPTION:

Winter Street Parking Policy

POLICY NUMBER:

TS-6

DATE APPROVED: March 9, 2009

REVISED: November 14, 2022

RESOLUTION #:40/09

#:228/22

Purpose: To restrict the parking of vehicles on the streets during the winter in the Town of Kipling in order to allow for proper snow cleaning. This will be done as follows:

- The Foreman along with the CAO will make note of vehicles parked on the street for more than two snowfalls.

Process:

- Upon notification by the Town Foreman, the CAO shall send the owner of the vehicle a letter requesting that they move the vehicle or risk having it towed.
- If the vehicle is not moved within 48 hours in which the letter would be deemed to have been received, the CAO shall contact a local towing company and have the vehicle moved at the owner's expense.
- The owner must then make payment for the cost of the towing plus a \$25 administration fee before the vehicle is released.
- A letter is deemed to be received within 5 days of mailing.
- The owner will be given a receipt as proof of payment to take to the towing company so that the vehicle can then be released.
